

VOICE OF COMBAT

(Continued from Page 1, Column 2)

people the real unvarnished truth. Only COMMON SENSE has refused to sugar away the bitter taste of America's betrayal and decadence with the sticky platitudes of a "conservative" me-too opposition. We have laid it on the line! We have named the enemy! Few have listened. Secure in their cloud world of a spurious economic prosperity, the "good American," shut his ears against the sound of reality. He knew that something was wrong, that behind the tinselled facade of the "consumer society" something ugly and awful stood waiting to break through. But still COMMON SENSE was a bitter pill. It went against the grain of his American optimism. It raised problems that embarrassed, that were bad for business. It did not advocate returning to the era of Benjamin Harrison as a cure for our ills, or "repealing the 20th century," as one naive conservative fondly and ludicrously wrote of doing.

No, COMMON SENSE'S conclusions were based on a terrible sense of historic reality, on what will be, rather than on wishful thinking. Reality hurts. It especially hurts the prosperous bourgeoisie who wants to maintain his standard of living with patriotism, as an afterthought, a hobby, so to speak. Thus the pessimistic but historically real message of COMMON SENSE was either ignored or deplored and many "GOOD PEOPLE" turned to the comforting bromides of the "right wing" phrase makers, who for 50 years have been leading the gullible sheep to the Marxist slaughter.

Platitudes and Fourth of July oratory, however, are not going to suffice in the terrible days of chaos that are almost upon us. Soon the good American's precious "standard of living" is going to evaporate, just as the moral standards of centuries have evaporated, just as law and order have evaporated. Then the "conservative" oracles will have no answers. Desperate men reduced to a bitter struggle for the bare essentials won't accept buncombe and humbug. They will want answers and an organic alternative to Marxist stock-exchange democracy and the humanitarian swindle. They will want a political movement based upon a firm grasp of historic realities, not a mass of meaningless platitudes or hysterical bombast. They will want bread, not stones!

COMMON SENSE, then, is entering upon the most important and crucial days in its history. The first 25 years were prologue. Now comes the hour of decision. We believe that out of the wrack and ruin of decadent, Judaized America something noble and real is going to emerge. Out of the sargasso of the spirit which envelops us, a new will-to-power will be born. We like to call this the "Third Force" or "Third Man" because it has nothing to do with the old worn out, opportunistic system of right and left, liberal and conservative, capitalist and socialist. The Third Man is none of these. He is the organized will of the nation, not the representative of some class, ideology or economic system. He is willing to overthrow all classes, ideologies or economic systems if they stand in the path of his task — the restoration of his race and nation. Either the third man, with his unassailable Gibraltariness of race feeling and will to order things well, will force a new system on the baffled mass of disillusioned Americans or else this country will DIE. That is the only alternative. Anyone who tells you differently is a liar or a fool.

COMMON SENSE is the voice of the "Third Force", the vanguard journal of the national revolution. We tell you not only WHY and WHO, but we tell you what must be done if you wish to survive. Unlike so-called "patriotic" journals we tell you the TRUTH, not what you WANT to hear, but the real truth about real problems and real events. We are the voice of combat and our mission is a new America.

POTPOURRI

By WILLIAM J. O'BRIEN

Yielding to world-wide pressure, the Soviet Union commuted the death sentences of two Jews involved in a Russian plane hijacking plot to 15 years in prison. Hardly a victory, 15 years slow starvation in a Soviet prison . . . The news from Chile is that both Right and Left are assailing the U.S. these days. . . . According to the Jewish Press (N.Y.) 12/8/70, New Left students at Hebrew University, Israel, finally backed down and decided not to execute a highly publicized plan to raise aloft a Palestine flag on the university campus. The decision averted a bloody confrontation . . . Manachem Beigin,

MENACHEM BEIGIN

notorious leader of the criminal Jewish Irgun, a terrorist and cold-blooded murderer, was guest speaker at the annual dinner of the Zionist Organization of America on Dec. 13, 1970, at the New York Hilton. Beigin (real name Freymann) served with the Communist church burners in Spain and with the Red army in China. He engineered the infamous blowing up of the King David Hotel in Jerusalem. Zionist Jews alone would have the gall to invite such an infamous Marxist as a guest speaker, and in the next breath, plead for aid to Israel to "fight Communism."

Recently a cool half billion dollars was earmarked for aid to Israel, to promote a war that is not our war, and for which the only U.S. reward will be ultimate involvement in a third World War. By contrast, to Cambodia, victim of unprovoked aggression we gave only \$250,000,000 . . .

According to Albuquerque, N.M., Journal, 9/25/70, Robert De Pugh was mistreated and choked by FBI agents, and burned on the forearm by a cigarette while his hands were tied. Let's not forget he was originally tried for a crime that they "think" he was thinking of doing.

"Damn it, if I were a black man I would be a revolutionary too." Who was the author of the above? Some starry-eyed liberal? According to syndicated columnist, Carl Rowan, it was none other than Richard M. Nixon himself. Remember when LBJ embraced the Communist battle cry "We Shall Overcome" in a voting rights speech before Congress on March 15, 1965? Have revolutionaries replaced Americans for Presidents? . . . Early last fall, Idaho said it would not comply with any of the provisions of the Voting Rights Act, namely: enactment of provisions for minimum 18-year-old voting; the ban on literacy tests; the 30-day residency requirement for voting in presidential elections. Where are the other forty-nine? . . . The President's controversial Commission on Obscenity and Pornography has outlined pornography laws for U.S. slightly less liberal than those of Denmark! . . . Shades of Sodom and Gomorrah! . . . The father of known Communist Angela Davis, alleged gangster and murder accomplice, charges that the four years she spent at Brandeis U., Waltham, Mass., led her into Communism and brought about her downfall. (National Chronicle 12/24/70). According to her father, at Brandeis, she came under the influence of the notorious Marxist Jew, Herbert Marcuse. Like Angela Davis, the story of many a black militant might have been different had they not come under the pernicious, satanic influence of the Jew . . .

Apparently not all Negroes fall for the insane Marxist gibberish handed out at Jewish insurrection centers like Brandeis Univ. There is this engaging story, from Waltham, Mass., of the outraged Negro woman, whose son was one of 65 Negro protesters at Brandeis U., and she was determined to take him home. Armed with an umbrella, she stormed Ford Hall, held by the Black students. When refused admittance, she tore down signs and was just about to climb through the window, when the blacks relinquished her son! . . .

Pentagon: Did you know that Pentagon employs 30,000 persons, has operating floor space triple that of the entire Empire State Building. States the World Almanac: "The employees make 200,000 telephone calls daily over 87,000 phones connected by 100,000 miles of cable, and receive and send 129,620 items of mail daily through the Defense Post Office in the building." Faced with such an astronomical home operation, is it any wonder we cannot win a war?

The National Commission on Reform of Federal Crime Laws, headed by former Gov. Edmund Brown of Calif., recommended (1/7/71) that the President and Congress ban possession and production of hand guns and require federal registration of all firearms: called for an end to capitol punishment and eliminating jail sentences for possession of marijuana. From these and other indications, have we rung down the curtain on the old America, and have we really ushered in the new Soviet America? If this be true, isn't it about time we stopped endless yapping about Soviet Russia, and demand to know why we tolerate a Soviet America that is already a fait accompli ? ? ?

LATEST IN WOMEN'S LIBERATION: FEMALE RABBI!

A Jewess, Sally Priesand, presently a rabbinical student at Temple Beth Israel, in Jackson, Mich., has been ordained the first woman rabbi in the world by Hebrew Union College at Cincinnati. She will discharge all male ceremonies including circumcision! Interviewed recently on "What's My Line," Sally told her audience she would officiate in her miniskirt. Now isn't that cute?

The Trial of Marshal Petain

By JULES ROY

An account of the monstrous revenge trial of the aged Marshal Philippe Petain by the sordid government of post-war France. Marvelously written, it is an important contribution to the growing literature on the legal injustices and judicial murders committed in the aftermath of the hollow victory of the so-called "democracies" over their moral and spiritual betters.

While Roy does not wholly agree with many of the policies of Petain he nevertheless tears to shreds the lies of the small, vindictive, venal men who were his accusers. This is an important book by a sensitive and highly literate author. It has the added advantage of having been translated into English by Robert Baldick, surely the most competent translator of French literature functioning today. Limited Edition!
